

The Richelieu logo is displayed in a bold, red, sans-serif font. The background of the entire page is a collage of various wooden cabinet door and frame samples, including a large, detailed view of a multi-layered frame in the upper right, several smaller inset images of different door styles in the center, and a curved door and chair back in the lower left, and another frame detail in the lower right.

AVAILABLE SPECIES

DRAWER FRONTS

Drawer fronts can be made of a solid piece of wood without a frame, in that case, only the front contour can be machined. See below. Fronts can also be coordinated with the door model: same frame, same panel, same assembly. In that case, 4 front types are available.

| 10 | right sideboard door | Available with A frame only, in widths of 13-3/8", 14-7/8", 16-3/8", and 17-7/8" |

- Glass door heads are as per the selected model. If a rounded head model is chosen (i.e. 113 or 114) the head of the glass door will also be curved as per the selected model.
- Our glass doors are fabricated to receive a single pane glass. For our special crown models (114, 300, etc.), we can fabricate the door to receive a square glass pane. Tell us what you need.
- Several other types of special doors, such as doors with vertical or horizontal frame members or panels for appliance fronts are also available through special order. Please contact us.

RELATED PRODUCTS

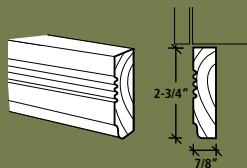

CROWN MOULDING

KICK PLATE

LIGHT VALENCE

There is a size of related product for each of the available curved doors.

NOTE

Our curved doors are only available on models with tenon assembly, and only in the specified radii shown on this page.

Only A, E, F, and N frames may be used for their fabrication.

Glass insert doors made from these frames are also available in curved versions.

Door models that include mouldings and surface-mounted rope mouldings cannot be curved.

For our curved doors, available species are oak (01), yellow birch (02), maple (03) and cherry (05). Some other species are available by special demand.

We suggest that you have your doors available before you start fabricating your cabinets.

**TO CREATE AND ORDER YOUR OWN DOOR MODELS
GO TO OUR WEBSITE**

www.richelieu.com

IT'S QUICK, EASY AND ACCURATE.

FROM OUR WEBSITE www.richelieu.com, PROCEED AS FOLLOW:

- 1- Identify the product category that interests you.
- 2- Choose from our bestsellers or create your own model.
- 3- If you are creating your own model, please indicate the type of assembly (tenon or 45°).
- 4- Then, choose your frame.
- 5- Choose your desired model.
- 6- Do you prefer a frame door or a panel door?
- 7- If it's a panel door, select your panel.
- 8- Indicate the wood species to be used in your door.
- 9- Then, choose the outside contour.
- 10- What wood category do you want?
- 11- Indicate the door dimensions.

THIS STEP-BY-STEP METHOD MAY ALSO BE USED TO CREATE AND ORDER DRAWER FRONTS, GLASS DOORS, CURVED DOORS, ALUMINUM OR STAINLESS STEEL DOORS AS WELL AS EXCELSIUS DOORS.

BY PLACING YOUR ORDER ONLINE

- **You can place an order and obtain a quote 24 hours a day.**
- **You can follow up on your order.**
- **Upon shipment, you will receive an e-mail notice from the shipper that contains all details of your order.**
- **Technical support is available at these numbers: 450 687-9199 / 1 866 979-5999**
- **You can assist your customers with the product design.**
